SUMMARY

Senior Data Analyst with a Master's in Data Science and 3+ years delivering end-to-end analytics across pharmaceutical manufacturing, supply chain, and consulting. Proven ability to scope complex data projects independently, build production dashboards and automated pipelines, and translate ambiguous business questions into measurable outcomes for executive stakeholders. Skilled in SQL, Python, Power BI, Tableau, and AWS cloud analytics.

EXPERIENCE

Senior Data Analyst — Project Delivery

Nexus Data Consulting

May 2025 – Dec 2025

Remote, USA

- Scoped and delivered concurrent data projects end-to-end, turning ambiguous requirements into structured analyses and Power BI / Tableau dashboards that replaced manual reporting workflows.
- Consolidated 4 manual reports into automated Power BI dashboards (3 days to same-day) and surfaced a 12% performance gap with recommendations adopted by leadership.
- Built SQL pipelines across 4 source systems (report prep 2 days to 4 hours); uncovered a \$180K variance and improved delivery accuracy 30% via Python validation scripts.

Operational Data Analyst — Inventory & Supply Chain

Kelley School of Business, Indiana University

Apr 2025 – May 2026

Bloomington, IN

- Built AWS QuickSight dashboards on Athena-backed datasets tracking demand, POS, and inventory turnover across 5,000+ daily transactions, improving SKU forecast accuracy 20%.
- Reduced holding costs \$10K/month by analyzing sell-through and supplier lead times, validated via EC2-based A/B tests and two-sample t-tests.
- Automated real-time anomaly detection using AWS Lambda and Glue pipelines feeding Redshift, enabling proactive shrinkage and stockout alerts; reduced surplus inventory 18% via ARIMA forecasting and regression models.

Data Analyst — Analytics & Reporting

Serin Formulations Pvt. Ltd.

May 2022 – Jun 2024

Hyderabad, India

- Automated executive reporting across sales, production, and finance using Power BI and SQL, consolidating multiple source systems and cutting report prep time 60%.
- Built inventory and supply chain dashboards tracking procurement costs, supplier lead times, and production throughput, surfacing cost reduction opportunities for operations leadership.
- Delivered financial variance analysis and KPI reporting as primary analytics contact for C-suite stakeholders in a regulated pharmaceutical environment, replacing ad-hoc Excel processes with automated pipelines.

PORTFOLIO PROJECTS

USASpending SAT Bunching Analysis

Confirmed systematic bunching at the \$250K federal acquisition threshold ($t = -14.68$, $p < 0.001$, +85.2% excess mass, ~2,439 excess contracts); pre-registered manipulation gate halted causal analysis as designed. [repo]

Python, McCrary Density Test, RDD (6.7M records)

SNAP Retailer Authorization DiD

Built 205,350 county-quarter panel (76 cohorts); falsified mechanism-specificity hypothesis (ratio=0.9998); found rural-only persistent effect (+111% baseline, $p < 0.001$) absent in urban counties. [repo]

Python, Stacked Difference-in-Differences (703K records)

NHANES Diabetes Label Bias Audit

Used Taylor linearization with PSU bootstrap ($B = 500$) to find Non-Hispanic Black respondents undiagnosed at $2.5\times$ the White rate (32.2% vs 12.8%, $p = 0.005$). [repo]

Python, Survey-Weighted Logistic Regression ($N = 5,877$)

U.S. Hub Airport MCT Calibration Audit

Found 45-min minimum connection time insufficient at 10 of 15 major hubs using P90 delay + 20-min floor; separated FAA airspace from carrier-operational delay via cause decomposition. [repo]

Python, BTS On-Time Performance (583K flights)

SKILLS

Languages: Python (NumPy, Pandas, Scikit-learn, SciPy, Seaborn, Matplotlib), SQL, R

Databases & Warehouses: PostgreSQL, MySQL, SQL Server, Oracle, BigQuery, Snowflake, AWS Redshift, MongoDB

Cloud & ETL: AWS (EC2, S3, Lambda, Glue, Athena), Azure, Databricks, dbt, Kafka, Airflow, Spark, SSIS, Alteryx

BI & Tools: Power BI (DAX), Tableau, AWS QuickSight, Excel (Advanced), Git, GitHub, JIRA

Analytics: Statistical Modeling, A/B Testing, Time-Series Forecasting, Causal Inference, KPI Reporting, Data Storytelling

CERTIFICATIONS

SQL Associate — DataCamp · Google Advanced Data Analytics — Coursera · Power BI Data Analytics Job Simulation — Forage

EDUCATION

M.S. Data Science — Indiana University Bloomington

GPA 3.54/4.0 · Aug 2024 – May 2026

B.Tech Computer Science & Engineering — Vellore Institute of Technology, India

GPA 8.29/10 · 2019 – 2023
